

**Bellus Limited Company Founder Awarded  
2012 Designer of the Year Award  
High Point Market Week**

High Point, North Carolina, May 2013 - Bellus Limited Company Founder and Principal Designer received a national Designer of the Year (DOTY) Award during the 2013 Interiors Design Society (IDS) National Conference. The award is given to interiors designers, as voted upon by their peers that exemplify dedication to their craft, commitment to client service and creating designs and lifestyles that are inspirational and reflective of modern day trends.

This prestigious award was presented to Christine Gee during IDS's 2013 National Conference awards night banquet, held in conjunction with Spring High Point Market Week. "Having an opportunity to be recognized by peers and industry leaders is a humbling experience, and I am grateful to be in the company of so many talented designers," stated Gee.

The annual IDS National Conference brings together an audience of international interior designers, architects, professionals to the trade and resources, focusing on meeting content specifically created for the benefit of the organizers' members. "Christine took an outdated, 20 year old, dark kitchen and created a stunning design that wowed the judges! They were impressed with the overall design quality, craftsmanship and Christine's ability to meet her clients needs while staying under budget," noted Snoa Garrison, Executive Director Interior Design Society.

Although held during the busy week of High Point Market, the 2013 conference is an opportunity for the interior design profession to continue education, learn new trends, products and methods to continue offering the most refined interior design concepts to clients.

**About Bellus Limited Company**

Bellus Limited Company is an award winning and full service design firm, offering floor to ceiling redesign and space planning. Founder Christine Gee is committed to creating interiors designs for both residential and commercial clients that are sophisticated, functional and fit the clients specific needs.
